SELL SOVIET WATCHES ON FREE MARKET -- Neue Zuercher Zeitung, 31 Oct 50

Men's and ladies' wrist and pocket watches are being imported to Czechoslovakia from the USSR in large quantities and sold on the free market at 4,800 crowns for wrist watches and at 3,500 crowns for pocket watches. It is estimated that only precision watches will be imported from Switzerland. However, even in this field there will be competition with East Germany. The prices of the watches imported from the USSR will be 20-30 percent lower than those of imported watches sold on the basis of ration cards.
